

Cookies

WHAT ARE COOKIES

Cookies are small files with text content and unique numbers that are stored on your computer. They are created when you use your browser and visit a website that uses cookies. Their primary function is to track your site traffic by helping you get back to the last state in which you used it, remember your username and password, select a theme, select preferences, or other personalization features. The website stores a record (with the same unique number as the corresponding cookie) to the one previously set up in your browser. Through this entry, cookies can track and store information about your experience on the site.

Cookies are often essential for websites that have large databases, require registration or user profile, provide customization options, and more.

Typically, cookies contain little information such as the internet address of the website that created them, their validity, and their number. Due to the small amount of information they contain, cookies can not normally be used to disclose your identity or personal information.

HOW WE USE COOKIES

Our site offers functionalities and tools available only when using some of the types of cookies. You can always block, delete, or disable these cookies, but keep in mind that if you do, you will not be able to make full use of this site.

WHAT COOKIES CANNOT DO?

Cookies are plain text files. They are not compiled and can not perform programming functions. They can not scan or scan your computer or track you or search for personal information on your device.

Cookies are safe files and can not spy on your computer and identify information about you or your family. Cookies only allow the website to recognize returning users on the website.

HOW TO MANAGE COOKIES STORED IN YOUR DEVICE

Cookies can be disabled or removed with tools that are available in most modern browsers. The settings of each browser are individual and each browser offers different functionalities and management options. For more information on how to block, delete, or disable cookies, please review your browser or device settings.

Cookie settings in Internet Explorer

Cookie settings in Firefox

Cookie settings in Chrome

Cookie settings in Safari web and iOS.

If you have concerns about cookies from external advertising service providers, you can exclude them from here: Your Online Choices site.

Please note that if you choose to block or disable cookies, some functionality on our site may not work partially or fully.
